Description

A compelling spin on the traditional Asian aesthetic, the Thai Jar Planter offers a sleekly redefined profile that is utterly elegant in detail. A remarkably lightweight and durable fiberglass structure, this modern plant container is designed for indoor and outdoor use. UV-resistant and scratch resistant, each planter is hand finished to your specifications in a choice of marine grade paints or trademark Fusions, which are available in a variety of natural metal finishes.

Shown above and to the right in Bronze 37"H.
