## Description

The Tron container shown above is in our Bronze Fusion finish and measures 24"SQx20"Bx34"H, it has a 2"H toe kick and has ash/trash top. The ash section can be filled with sand and is approximately 6" deep, there is also a trash/recycle option and comes standard with a durable fiberglass liner (25 gallon capacity) or liners (12 gallons each) with a rolled lip and hand slots. The Tron is available in any of our standard 15 finishes or custom colors and can be purchased without the top and liner and used as a planter.
