

What Makes IAP Different?

Fusion (fu-sion)

For over 40 years IAP has supplied designers, hospitality owners, and landscape architects with quality in-stock and custom commercial contemporary indoor & outdoor planters, extra large fiberglass planters, trash and recycle containers. To keep up with the needs of modern interiors and landscape architecture, the building materials for commercial and modern fiberglass planters have become something of a science. The all weather IAP containers combine natural and synthetic materials to create lightweight, sculptural forms that can be used both indoors and out. Carefully made by hand, each piece is constructed from a fiberglass shell with a natural metal finish applied over the top. They are then hand polished (Fusion finishes only) to achieve a rich, dimensional surface that will either patina over time or take on a matte finish, depending on the salt content of the air.

IAP Fusion Finish Planters

What's the Difference?

Our signature engineering process combines the careful hand-layered application of fiberglass with the permanency of steel reinforcements, resulting in a durable and lightweight planter for indoor and outdoor use.

IAP offers a wide selection of standard finishes of Fusion or LPU marine grade paints. Our Fusion finish is created by fusing natural metal to the fiberglass shell. This finish is hand-polished to create a rich industrial surface which will gracefully patina over time.

For a uniform application, IAP's standard painted finishes are marine-grade. This LPU paint is a high-performance coating for UV deterrent, color retention and durability.

IAP designs modern and versatile trash, recycling and compost receptacles. Considerate of the growing requirements to sort refuse, IAP creates containers that can easily be modified to suit your specific needs.

The following pages display containers that can be used as planters or trash/recycling receptacles. IAP provides appropriate signage to identify the use of each multi-purpose container.

All pieces are available in our wide selection of standard Fusion or LPU marine-grade paint finishes. If you have a specific design need please contact us directly for a custom quote.

*Indicates a fusion of metal and fiberglass technology that will patina naturally over time.

CUSTOM FINISHES

All custom orders require a 50% non-refundable deposit and are non-cancelable. There is a minimum quantity of 12 pieces per design, size and color. Delivery time is longer as new molds require an additional 8 weeks of manufacturing time, with an additional cost for custom colors. This is only a printed representation of the color and may not be 100% accurate.
